To whom it may concern,

I would definitely recommend Coach Matt Harris for any softball coaching position at any level. My daughter was on a team with Coach Matt for multiple seasons, and there were so many positives about her time on his team. He is very organized with his paperwork as well with planning his practices. Everything is well documented, and he spent a great deal of time reviewing and analyzing stats to inform his future practices as well as his lineup. My daughter had an enjoyable time while in the team with Coach Matt and learned so many skills that will help her as she moves forward with her softball career. He was very fair in giving each player various opportunities to try new positions and to develop various skills. Coach Matt came to every practice and game with a great deal of enthusiasm that carried over to the players. He kept in great communication with parents and led the team with dedication, respect, and authority.

Please contact me if you have any further questions regarding our time on Coach Matt's team.
